## Organic Hydrosol Therapy

*Stop Hair Loss With Intensive Organic Care*

CERTIFIED  
ORGANIC  
BOTANICALS

## Magically Healthy Hair with Flowers of Sun

For more than 20 years I have been utilizing amazing energies of herbal formulas. These plants and herbs are my best friends at work.

I am thankful with joy for the wonderful therapeutical powers of Mediterranean fauna. I delicately balance their curing effects by selecting the best harvest and finding the critical mix of different herbs acting together like invisible therapists.

Organicum brings together untouched and pure energies of certified organic plants hand-picked and carefully harvested at 400-1,000 m. high pastures of Turkish Taurus mountain range.

Organicum daily use hair care products contain 100% organic botanical hydrosol helping to revitalize and to rejuvenate hair follicle with its direct effect. Ordinary extracts by old methods are avoided in Organicum.

Organic hydrosol - plant waters and essential oils are extracted with a new method saving natural tonic effect. Hydrosol, without being filtered or processed, does not contain any petroleum derivatives such as solvents.

Hence, the active ingredients of plants such as minerals, vitamins and pharmaceutical essences totally preserved.

Our products do not contain SLS, SLES, Parabens, Lanolin, Silicone, colorants and synthetic extracts that may start follicle loss, premature aging, asthma, other allergic reactions and rashes.

All certified organic nettle, sage, rosemary, lavender and horsetail within Organicum help naturally recovering from dermatological problems of scalp such as hair loss (alopecia), excessive sebum production (seborrhea), dandruff, dullness, frizz, eczema and psoriasis.

I wish healthy, happy days with Organicum's tender love and care.
